Starting in the scenic recreation area of Hidden Valley, the Bogan Run Trail climbs Back Creek Mountain. Starting on Forest Road 241, it climbs up several hundred feet. Near the top of Back Creek Mountain it crosses Forest Road 121. From there it climbs down to State Road 600 on the other side of the mountain. The trail traverses through a variety of landscapes, including crisp mountain streams, old timber harvest areas, and mature forests. One area was subjected to a controlled burn, and the open environment allows you to witness firsthand a regenerating forest.
